SUMMARY

Full-stack developer and AI automation engineer who ships real products. In under a year I have built a SaaS platform solo and contributed to four production applications — spanning web development (Next.js, Node.js), backend and database work (Supabase, PostgreSQL), and AI automation (n8n, LLMs, chatbots). I build fast with AI-assisted development and turn business problems into working software. Seeking a full-time or contract remote role.

TECHNICAL SKILLS

Full-Stack / Web: JavaScript, React, Next.js, Node.js, Supabase, PostgreSQL, REST APIs, HTML/CSS, Git

AI / Automation: n8n, LLM integration, OpenAI API, Google Gemini, AI-assisted development, RAG / vector search, chatbot development, WhatsApp / Telegram / Meta (Facebook, Instagram) APIs, webhooks, prompt engineering

EXPERIENCE

Full-Stack Developer — Self-employed

Aug 2026 – Present • Remote

- Building **getvoicium**, a multi-tenant AI chatbot SaaS, solo — from architecture to deployment — with Next.js, Supabase (pgvector), Google Gemini and RAG.
- Developing full-stack ERP software for Nandi Real Estate and Developers Pvt. Ltd. (ongoing).

Software Developer Intern (Full-Stack & AI Automation) — Autolinium

Mar 2026 – Aug 2026 • Remote

- Built automation workflows and internal web dashboards for business operations.
- Contributed to **ezpzbd.com**, an AI-powered EdTech platform tutoring HSC students in Physics, Chemistry and Math — trained the AI tutors on the learning content and question data.
- Delivered a WhatsApp-based sales-management SaaS for **Champion** — built the WhatsApp API integration for automated daily reminders, lead management and sales-team performance tracking.
- Developed ERP software for Nandi Real Estate and Developers Pvt. Ltd. (full-stack).
- Built Facebook, Instagram, WhatsApp and Telegram chatbots and AI-powered Facebook auto-posting using n8n and LLMs.

PROJECTS

getvoicium — Solo SaaS • getvoicium.com

Multi-tenant AI chatbot platform that answers customers in Bangla across Facebook, Instagram, WhatsApp and a website widget. Per-client knowledge base with RAG-based retrieval, product catalogue, broadcasts and billing. Built with Next.js, Supabase, Gemini.

ezpzbd — AI EdTech • ezipzbd.com

AI tutoring platform for HSC students with multiple AI tutors and voice explanations in Bangla and English. Trained the AI on board-exam solutions and learning data.

Champion Sales-Management SaaS — WhatsApp automation

SaaS that tracks a sales team and head office through WhatsApp — daily reminders, lead management and rep ratings. Built the WhatsApp API integration.

Nandi Real Estate ERP — Ongoing

Full-stack ERP system for a real-estate development company.

EDUCATION

B.Pharm (Bachelor of Pharmacy) — Northern University Bangladesh • 2020 – 2024
